05 October 2005

- Welcome / Review Agenda — Mr. Welch
- Opening Remarks Chairman — Mr. Tafoya
- Assistant Chairman — Mr. Taylor
- Guest Speaker: EPAS Lessons Learned — Ms. Mary Foley
- Guest Speaker: HMRC — Mr. George Spears
- Review of Status of Due Outs from Last EQCC — Mr. Welch
- External / Internal Assessment Workshop — Mr. Welch
- Right-to-Know Boards — Mr. Hanson
- Guest Speaker: ECO V Corps STB Motor pool — SGT Hartley Devalle
- Discussion/Wrap-up — CC
- Due Outs — Welch
- Next EQCC Meeting — Welch
- Closing Comments — afoya

Guest Speaker:

EPAS Lessons Learned

Ms. Mary Foley, Chief of Mannheim Environmental Management Office

The USAG - Mannheim had their EPAS external assessment earlier this year. Their lessons learned can assist us to know what to expect in December, and how to be prepared.

Please use this opportunity to ask any questions you may have as to how the assessment will play out for your unit or organization in December.

Guest Speaker:

Hazardous Materials Reuse Center (HMRC)

Mr. George Spears

HRMC is a center in Mannheim where materials nearing their expiration date can be taken, so that other units may utilize them. These materials, based on availability, may be picked up at no charge.

This reduces the amount of hazardous materials being wasted because of expiration date, and allows units to save money by picking up unused materials from other units.

Due Out from Last EQCC

Lacking ECO Appointment Letters

Unit/Activity	ECO	Unit/Activity	ECO
5th Signal Command	Ms. Kamita McElveen - Primary	AAFES, PX	Mr. Carl-Heinz Reuther - Primary
5th Signal Command	Mr. Reginal Hall - Alternate	AAFES, PX	Ms. Marjorie Escobar Roth - Alternate

		AAFES Care Center	Mr. Jason Deweese - Alternate

Workshop

You should have the following FGS Compliance Checklist Handouts:

- Chapter 5 Hazardous Materials
- Chapter 6 Hazardous Waste
- Chapter 7 Solid Waste
- Chapter 9 Petroleum, Oil, Lubricants
- Chapter 15 Asbestos and Artificial Mineral Fibers
- Chapter 18 Spill Prevention and Response Planning

Included as well are the “Examples if Situations to Avoid” picture example handouts.

Right-to-Know Boards

Right to Know boards are currently being distributed to maintain MSDS and general information (green) binders.

Included in the green binders are the: Spill Prevention & Response Plan, Hazardous Waste Management Plan, Operating Instructions (German & English) FGS

Guest Speaker:

V Corps STB Motorpool

SGT Hartley Devalle, ECO

V Corps STB Motor pool was recently recognized as the top Motor pool in V Corps.

The motor pool shows excellence in environmental compliance and safety, and should be a model for all motor pool operations.

Environmental Quality Control Committee Meeting
05 October 2005

Open Group Disc

Due Outs

All organizations must be prepared for the EPAS. This means knowing environmental responsibilities and fixing all previous findings. If you have any questions or issues in preparing your unit for this assessment please call the ED at 387 – 3140.

All units must have ECO appointment letters to the ED ASAP. 387-3142

All units must have labeled containers for Recycling, and must identify areas of weaknesses in their recycling programs (i.e. custodial not keeping separated, lack of containers). Field Assessments are ongoing.

POC at 387 – 3144.

Environmental Quality Control Committee Meeting 05 October 2005

Next scheduled EQCC Meeting/EPAS Workshop:

02 November 2005
1330 hrs, Tompkins, Bldg 4219

Upcoming EQCC Meeting Date:

13 Dec 2005 (also EPAS External Assessment Outbrief)

1330 hrs, Tompkins, Bldg 4219
